

WEATHER CONDITIONS

Adverse conditions or other emergencies that affect the safety of our students in Lincoln County may require schools to be closed for the day or the opening to be delayed for several hours. Sometimes isolated dangerous weather situations might require schools in one area of the county to close or have a two-hour delay while other schools remain open. To get information about school closures or delays, tune in to your local radio station or television news networks in the valley. You can also check the LCSD Website (www.lincoln.k12.or.us) or our 24-hour Information line (265-4437).
